A DIVISION OF ORTHO ALLIANCE NJ

The Physicians of Orthopaedic Institute of Central Jersey Join Forces with Nearly 100 Physicians in Over 25 Office Locations to Form ORTHO ALLIANCE NJ, New Jersey's Largest Orthopaedic Group

April 7, 2021 – The physicians of **Orthopaedic Institute of Central Jersey** have joined forces with the physicians of six other orthopaedic practices from around the state to form Ortho Alliance NJ (www.OANJ.com), now the largest orthopaedic group in New Jersey. Ortho Alliance NJ will have more than 25 office locations statewide and be composed of more than 100 physicians.

Orthopaedic Institute of Central Jersey will now operate as a division of Ortho Alliance NJ and its physicians and providers will maintain their existing office location(s) and contact information, allowing **Orthopaedic Institute of Central Jersey's** patients to enjoy the same comfortable relationships with the physicians and office staff at the same location they have always visited.

The seven practices which will now operate as divisions of Ortho Alliance NJ include Brielle Orthopedics, **Orthopedic Institute of Central Jersey**, Princeton Orthopaedic Associates, Ridgewood Orthopedic Group, Shore Orthopaedic University Associates, Union County Orthopaedic Group, and University Orthopaedic Associates.

“As part of the largest orthopaedic group in the state, our physicians and staff will provide the same personalized, high-quality care that patients have come to expect from our practice, but now with greater resources at our disposal,” said Ortho Alliance NJ President Dr. Stephen Zabinski.

Ortho Alliance NJ's world-class physicians are board-certified, board-qualified, or fellowship-trained --some are even double- fellowship-trained. Patients will now have access to the top physicians in every orthopaedic subspecialty in New Jersey under the Ortho Alliance NJ umbrella,” explained Dr. Stephen Zabinski.

Ortho Alliance NJ's specialties include:

- General Orthopaedics
- Adolescent & Pediatric
- Foot & Ankle
- Hand & Wrist
- Hip & Knee
- Pain Management
- Physical & Occupational Therapy
- Shoulder & Elbow
- Spine, Back & Neck
- Sports Medicine
- Total Joint Replacement
- Trauma & Fracture Care

A DIVISION OF ORTHO ALLIANCE NJ

“All of us at Ortho Alliance NJ are keenly focused on providing the highest standard of orthopaedic care and delivering the optimal patient experience. What makes us different from other large group practices is that we meaningfully embrace the local community model and are committed to providing personalized patient care,” said division spokesperson. “These values are important to our group practice culture, as well as our clinical approach to practicing orthopaedic medicine.

“But now, as part of ORTHO ALLIANCE NJ, our physicians will be able to share best practices for treating patients, as well as our research, knowledge and expertise with the other physician members of ORTHO ALLIANCE NJ. We strongly believe that this kind of collaboration will greatly benefit our patients and set the highest standards for superior patient outcomes and the practice of orthopaedic medicine here in New Jersey,” said Dr. Stephen Zabinski.

Dr. Zabinski added, “Worth noting, as an independent group practice, not affiliated with or owned by any healthcare system or hospital, ORTHO ALLIANCE NJ is uniquely positioned for growth based on our own vision forward as we remain committed to innovating how we deliver the highest standards of care to our patients, while offering the latest technology and most advanced treatments available.”
